

## Quad RJ45 UTP Splitter

### Features:

- 4 RJ45 Jack to 1 RJ45 Jack.
- Allows 4 IP Devices to share 1 Cat 5e Back Bone
- Wide bandwidth of operation
- Bi-directional use
- High Reliability and Durability
- Top quality and performance
- Passive Device (no power is required)
- Stable over working temperature between 0 °C to +55 °C

Quad RJ45 UTP Splitter  
Part No: E10170S

### Application:

For multiple IP device installations where one Cat 5e cable is used as the backbone, the cable will need to be split to allow each of the devices to be connected in parallel. The E10170S RJ45 Splitter will facilitate quick and reliable connections using RJ45 plugs to connect to the splitter.

### Specifications:

Bandwidth:	DC to 20 MHz
Insertion Loss:	<0.1 dB to 8 MHz
Impedance:	100 ohm
Contacts:	Gold 50 micro inch
RJ45 Pinout:	See diagram below
Casing:	Fire Retardant Plastic ABS UL 94V-0
Case Dimensions:	105 x 43 x 22 mm
Temperature Range:	0 to 55 °C operating, -22 to 80 °C Storage 95% Relative Humidity

Compatible with: EQL's range of Easy UTP extender kits.
